LONGLIFE® ELECTRIC INCH FOLDING RULER

KUNSTSTOFFWERK AG BUCHS • RHEINAUSTRASSE 7 • 9470 BUCHS
• SCHWEIZ

Material: 30% fiberglass-reinforced polyamide, scratch, scratch and moisture resistant.
Joint: Backlash-free and wear-free, dirt-insensitive patent joint, with stainless steel spring rod for uniformly high tension, useful 90° locking of all joints.
Division: Black embossed numbers (scale) with white tens on orange background.
Accuracy: According to EU standard Accuracy class III, CE compliant
Packaging: 10er neutral

This folding rule features an integrated retraction aid and a can distance marking. The folding rule is type-tested for work under voltage of 1,000 V and is permanently safe and multifunctional.

The Longlife® folding rule can now not only measure, but thanks to its high bending resistance and ingenious cable holding function at the end of the scale, it can also be used as a retraction aid for short distances. This practical additional function saves ways and thus valuable time. The bright orange increases visibility in dark cavities.

Specially developed for the electrician.
